

FROST *Fighter*

PORTABLE HEATERS

IDH1000/1300

The IDH1000/1300 is a powerful self contained heating solution engineered to provide up to 1,000,000 BTU/hr of heat for the most harshest and remote environments. Includes 2 powerful IDH500QR heaters that each provide 4800 CFM & 3.5" of static pressure.

- *Slide system for serviceability
- *Large storage capacity for ducts & tools
- *Dual axle, shore power, & multiple duct options
- *Removable grip fenders

IDH1000:

- Full four-point lifting frame.
- 220 US gallon tank with environmental spill containment & forklift pockets.

IDH1300:

- Long run time with 300-gallon dual walled tank & forklift pockets. No 4 point lifting frame.

IDH500TL

The IDH500 units are now available on a tow-able trailer with a 245 gallon tank. The robust trailer has a 7000 lb torsion axle with swivel hitch for smaller footprint on a job site. The tank is double walled with 115% containment. Duct bars for easy duct storage.
